Crafting bold, distinctive brands that dare to be unforgettable

How This Works

The rates you'll find here are starting points—not final numbers. Every brand has its own story, challenges, and ambitions, which means every project is uniquely priced to reflect that.

This guide gives you a clear picture of where things begin, but it's not a formal proposal. Think of it as the first piece of the puzzle. Want to see the full picture? Fill out my enquiry form. I'll respond within 48 hours, and if we're the right fit, we'll book a call to talk through your vision. From there, I'll create a custom proposal tailored exactly to your project.

About Me

The Vision Builder Behind

01

So Nice to Meet You

Hey, I'm *Sara*

My journey into brand design started with a simple realization—I wanted to create something meaningful. In 2023, I decided to stop dreaming and start doing. I launched my freelance design business with nothing but passion, a laptop, and an unshakable belief that I could build something extraordinary. Those early days were a mix of excitement and uncertainty, late nights perfecting logos, learning the ins and outs of running a business, and discovering what it truly means to pour your heart into your work. But with every project, I found my rhythm. I started to understand the true power of branding—not just as a visual identity, but as a story, a feeling, a connection. It became clear to me that design isn't just about making things look beautiful; it's about giving businesses the confidence to show up authentically and make an impact. With dedication, a vision for what I wanted to create, and a deep love for what I do, I've built a business that feels like a true

reflection of who I am.

Today, I work with ambitious creators and businesses from all over the world, helping them transform their ideas into brands that stand out, resonate, and leave a lasting impression.

Every project is personal to me—it's not just about delivering a logo or a color palette; it's about understanding your vision, your values, and your goals, and translating that into a cohesive, strategic identity that helps you grow and thrive. But here's the thing: I'm not just here to build brands. ***I'm here to show you what's possible when you believe in your vision and take the leap.*** I've seen firsthand how the right brand can change everything—how it can open doors, attract dream clients, and give you the confidence to own your space. And I want that for you. I want to empower you to invest in yourself, to trust the process, and to create something you're proud of.

Faq

When will I receive my final files?

You'll receive all final files upon completion of the project and payment of the final invoice (remaining 50%). Files are delivered on Notion, organized and labeled with a clear usage guide.

Do I own the rights to my brand after the project?
